Your flight is automatically scored by emailing your .igc trace to: ysa@soaringtasks.com

A summary of completed tasks is immediately emailed back.

The fastest times are recorded on slips, magnetized to the task boards, and ordered from fastest to slowest - top to bottom. Adjust the slips to maintain this ranking as required. Complete a slip with this information:

Date Task Time	Aircraft Type (& Reg)	Pilot Name(s)
----------------	-----------------------	---------------

For a new, faster flown task once the board is full, wipe the slip with the slowest time clear to make it available. Complete it, and place it back on the task board in order of time (fastest on the top).

If the task fails the test by email, but is proven good on SeeYou, an OO can sign the slip with a validated time. Please share constructive feedback, or your experience with the platform through soaringtasks.com.

To retrieve a file including turnpoints and tasks for the club's Proving Ground, send an email to the address above with the word "task" anywhere in the subject. The club Proving Ground .cup file will be promptly delivered as an attachment to the requesting email address.
